

U.S. Lubricants Announces a Strategic Partnership with Harrigan Industrial Technologies, Inc.

Posted on May 22, 2017 by U.S. Lubricants

Appleton, Wis. – May 18, 2017 – U.S. Lubricants, a division of U.S. Venture, Inc., is proud to announce their strategic partnership with Harrigan Industrial Technologies Inc., located in Cedarburg, WI. The partnership presents an opportunity for U.S. Lubricants to provide its customers' with an expanded product line of industrial lubricants and other products and services related to lubricant filtration.

Harrigan Industrial Technologies, Inc. has been serving the upper Midwest for more than 30 years. The family-owned company has prided itself on offering a wide portfolio of products including Castrol industrial lubricants, Henkel metalworking fluids, greases, filter media, filter bags and cartridges.

“We align ourselves with the values and quality of service that U.S. Lubricants provides, and we are looking forward to partnering with a great organization that puts its customers first,” states Bill Harrigan, President & CEO of Harrigan Industrial Technologies. “The entire Harrigan Industrial team is excited for the opportunity to partner with U.S. Lubricants, and we look forward to continuing to serve our great customers.”

As a leading provider of lubrication solutions, U.S. Lubricants is equipped to maintain and expand the current customer base of Harrigan Industrial Technologies while upholding the local culture and industry expertise that Harrigan is historically known to provide.

“We are very excited to partner with Harrigan and bring additional products and services to our customers,” says U.S. Lubricants President Bill Renz. “U.S. Lubricants will continue to grow significantly in the coming years, and this is one of many next steps that will position us to provide the best value to our customers.”

About Harrigan Industrial Technologies, Inc.

Harrigan Industrial Technologies, Inc. is a regional leader in the industrial lubricants and filtration services industry. For more than 30 years, Harrigan has helped industrial customers become more efficient and more profitable through increased uptime, improved cycle times and reduced spending on indirect labor, fluid usage, disposal and tooling.
